

A miracle while driving

A miracle that happened to me recently, J., it is also important for all people, because so many accidents happen everywhere

I describe my accident: Because I am no longer the youngest. Before I get in the car, I ask my Holy Guardian Angel to hold the steering wheel and to drive with me, I cross myself beforehand in the name of the Holy Trinity, the † Father and the Son and the Holy Spirit and then I also ask the Holy Mother of God Mary to protect me with her protective cloak from the car, in the car and after the car. I also told my colleague Bernhard that he would do that. On June 4th, 2024, I drove J. to the swimming pool - Rotherma. On the country road, everyone suddenly braked hard and turned right and stopped because a police car with blue lights came from the front. I was driving at 70 km/h even though 100 km/h is permitted there. My holy guardian angel braked so quickly and drove to the left where the police car with blue lights was coming towards me. The police car was about 50m away from me and also braked. The guardian angel steered so quickly to the left so that I wouldn't drive into the other car, I felt a power as if it wasn't me, but surely it was my holy guardian angel. I was surprised that I couldn't react so quickly at that speed. The car behind couldn't brake and drove into me. There was a very loud bang and my car was a total write-off. The most important thing is: nothing happened to me physically or health-wise. This means that the holy guardian angel was driving and the holy mother of God was protecting me. My prayer for protection was heard by them.

I thank the Holy Triune God, Holy Mother of God and my guardian angel, for their great help and protection. I hope that many people will also pray to the Holy Trinity and invite the Holy Mother of God and the Holy Guardian Angel to come along.

After the accident, a policewoman asked me: "Should I call an ambulance?" I said no.

For example, someone then told me to go to the doctor and get a sick note because of the accident, then I would get money from the insurance company.

I said to him: "I will not lie and go to confession because that would be a sin," because after the accident, everything was fine with my health.

The Savior told me: "I could be dead after the accident!"
