

Commentary on Holy Communion:

June 2, 2024

Hand Communion is false doctrine (Heresy) and an abomination in the eyes of God! Some priests preach to the Faithful that they have received a blessed piece of heavenly bread. After the transubstantiation, however, it is no longer bread, but the living Holy Triune God - one inseparable God with flesh and blood, body and soul, divinity and humanity, alive, truly present. Therefore, you must receive communion with oral communion and paten, so that no particles fall to the ground and are not trampled underfoot. Because even in the smallest particles, the Holy God Jesus Christ is present. Many Christians go to receive Holy Communion without confessing. The priests must hold confession more often and remind the faithful to confess. And the faithful must ask the Holy God for deep repentance for their sins. Because in confession without repentance, the soul feels no relief, liberation and no love. People fall into sin much more quickly. The devil often tells souls that there is no sin. Or the Christian says: "I have no sin." Are any of us without sin? Or if believers no longer have sin, they are blinded by the devil.

The Holy God Jesus Christ said: "With a pure heart you will see God!"
