

## Commentary on what the Savior says:

It is a sin when some priests refuse to give Communion in the mouth in some places, like this recently: An African priest in the town of **F.** refused to give me (**J.**) Communion in the mouth. He wanted to force hand communion on me.

I said very loud: **NO!**

I then asked the Savior: Why did the priest refuse me Communion in the mouth?

Savior answered me, "this is Lucifer's work." And Communion on the hand is an abomination before my eyes.

This priest doesn't like that people worship the Holy Mother of God and sing her songs. The next time he refused Mouth Communion again and embarrassed me in front of everyone in church and said: "He doesn't want to give Communion in the mouth and everyone should do Communion in the hand".

We have to ask ourselves: does the priest really believe in God when he does such a sacrilegious?

Unfortunately, in such cases we must receive spiritual communion. The Savior said, "It is better when the people receive spiritual communion instead of hand communion", because He comes to us into our hearts with his grace and we do not leave the church empty.

When Christians deliberately receive Communion on the hand and the priests distribute it, they all have to responsibility to God (it would be good if they go to confession)!

Nobody should leave the Catholic Church because of such cases, but to pray for all. Prayer always helps us do God's will.

God gave us the Rodalben sign for Communion receiving in the mouth, as it used to be.

The priests bear the responsibility before the Holy Trinity God for heresy (false doctrine) in the Church!
